

INSULCAST POTTING COMPOUNDS AND ENCAPSULANTS

now available in the Americas, Eurasia, Africa and Australia

ITW Insulcast manufactures a wide range of standard and specialty epoxies and silicones designed to encapsulate a variety of electrical and electronic equipment while delivering superior mechanical & electrical properties.

A majority of your project requirements can be satisfied by either of these two products.

INSULCAST 116FR EPOXY ENCAPSULANT

- easy 1:1 mix ratio
- flame retardant (UL 94V-0)
- safe and solvent-free

INSULCAST RTVS27 SILICONE ENCAPSULANT

- easy 1:1 mix ratio
- high temperature
- flame retardant (UL 94V-0)
